

## Output format (1)

### INPUT

There are multiple testcases for this. For each case, there is a 32-bit integer on a line. Input ends with EOF(end-of-file)

### OUTPUT

Output that integer. Add a blank line between testcase, but no blank line at the end.

### SAMPLE INPUT AND OUTPUT

Input	Ouput
5	5
4	
5	4
12	
14	5
1	
	12
	14
	1

Don't use cin    cout.
